Abu Muntasir's talk was very powerful and I am sure it has left a positive impact on all listeners. Can you ask him to write down his 13 points to be published in BPPA Nama?

10/2/2013 9:27 AM [View respondent's answers](#)

Dr Waheed lecture did not fit into the theme of the conference. He talked about crisis team not Asian women. Very poor presentation with no link between the slides.

9/30/2013 7:28 PM [View respondent's answers](#)

All of them had in-depth knowledge in the area they had selected to present which was made it very interesting.

9/30/2013 1:09 PM [View respondent's answers](#)

Good presentations. All thought provoking information

9/29/2013 11:51 PM [View respondent's answers](#)

overall not well prepared, except one or two speakers

9/29/2013 11:49 PM [View respondent's answers](#)

Dr Summersfield should have been given more time to do his presentation. An eye opener, very scintillating, jolting, no politically correct but much enlightening presentation.

Wish we have more doctors like him

9/29/2013 11:46 PM [View respondent's answers](#)

Dr Farooqui had good info but poor presentation Dr Summerfield fantastic presentation, very good start to the day Dr Waheed kept speaking to only one corner in the room Symposium 2 very bored chair and cochair, a little smile and better communication maybe helpful and inviting Dr Kaiser very interesting, may want to speak a little slow. Very unfair as only allocated 15 minutes Abu Muntasir fantastic, excellent speaker. Would love to hear from Dr Kaiser and Abu Muntasir again. Very bad audio system (Very noisy)

9/29/2013 11:31 PM [View respondent's answers](#)

Prof Murad Khan did not come Very good day 1 speakers

9/29/2013 11:22 PM [View respondent's answers](#)

Time management may need some attention

9/29/2013 11:17 PM [View respondent's answers](#)

Well done organisers

9/29/2013 11:13 PM [View respondent's answers](#)

Mixed quality

9/29/2013 11:11 PM [View respondent's answers](#)

Clearly interesting topics selected. Thanks to organising committee

9/29/2013 11:10 PM [View respondent's answers](#)

The talk by the first speaker was a personal view/ personal recollections which did not fit well with the academic programme. Similarly the talk by Simon Dein was simply a chat about extreme groups of no scientific merit.

9/29/2013 11:06 PM [View respondent's answers](#)

The last session was interesting but not relevant for CPD requirements. The first speaker was good

9/29/2013 11:01 PM [View respondent's answers](#)

Some lectures (Dr Kaiser, Abu Muntasir) did not have any significant relevance to continued professional development

9/29/2013 10:57 PM [View respondent's answers](#)

All speakers did very well, however due to equipment failure there was some disturbance in their presentations

9/29/2013 10:51 PM [View respondent's answers](#)

Interactive sessions. Very comprehensive. Good literature But less time for questions - should be longer

9/29/2013 10:45 PM [View respondent's answers](#)

All the speakers were very good and delivery was also very good

9/29/2013 10:42 PM [View respondent's answers](#)

It would have been helpful to have heard about succesfull intervention with potential terrorists

9/29/2013 10:36 PM [View respondent's answers](#)

Dr Kaiser talk - more time was needed It would be helpful to tell speakers before hand how to prepare slides i.e. color and background as it was extremely difficult to see slides from the back

9/29/2013 10:28 PM [View respondent's answers](#)

Good time keeping Good talk on revalidation and information of recent RCPsych developments

9/29/2013 10:23 PM [View respondent's answers](#)

The first speaker was outstanding

9/29/2013 10:21 PM [View respondent's answers](#)

Good presentations, clinically advanced

9/29/2013 10:17 PM [View respondent's answers](#)

Enlightening new points from each speaker Revalidation: Expected more on the subject but still iseful to hear about College;s thinking & plans

9/29/2013 8:39 PM [View respondent's answers](#)

Please ask the chairs and co-chairs to be more active in originating discussion Dr Farooqui didnt say much about his topic

9/29/2013 8:37 PM [View respondent's answers](#)

very Good!

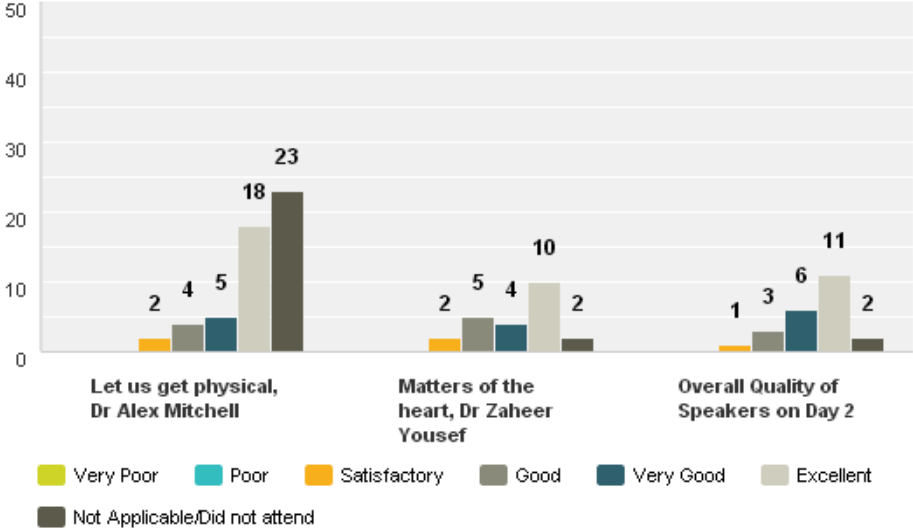

9/29/2013 8:35 PM [View respondent's answers](#)

very good!

Any comments about the speakers on Day 2?

We need more of physical medicine related to psychiatry as you already know. Top notch selection of speakers for the Day 2.

10/1/2013 11:52 AM [View respondent's answers](#)

Excellent

9/29/2013 11:51 PM [View respondent's answers](#)

Good

9/29/2013 11:22 PM [View respondent's answers](#)

Finally got some CPD Would prefer more on ECG and less on cardiac devices which are less relevant for a general psychiatrist

9/29/2013 11:06 PM [View respondent's answers](#)

Too much data by first speaker made it difficult to follow Cardiology session was not relevant especially first part

9/29/2013 11:01 PM [View respondent's answers](#)

Presented lots of data which was difficult to keep in head. Would help if there was a handout

9/29/2013 10:57 PM [View respondent's answers](#)

Poor time management. Ran out of time. Speakers need more time

9/29/2013 10:53 PM [View respondent's answers](#)

Alex Mitchell has presented in an excellent way. However he was too fast in showing slides

9/29/2013 10:51 PM [View respondent's answers](#)

Better organised, more interactive session. Very thorough.

9/29/2013 10:45 PM [View respondent's answers](#)

It has been one of the best sessions I attended

9/29/2013 8:35 PM [View respondent's answers](#)

Excellent - more time needed to complete

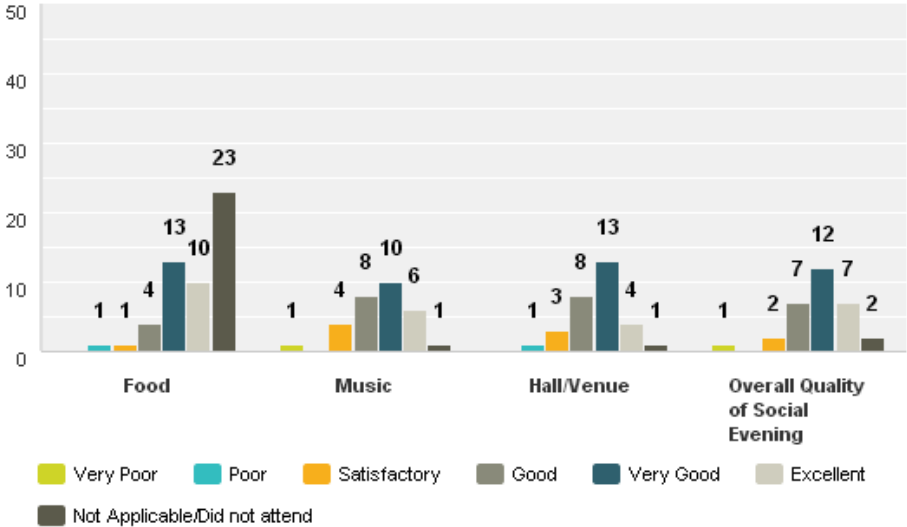

9/29/2013 8:33 PM [View respondent's answers](#)

It has been one of the best sessions I attended

Thanks to organisers and well done Rufi.

10/2/2013 9:27 AM [View respondent's answers](#)

Fantastic value for money.

9/30/2013 1:09 PM [View respondent's answers](#)

Need more of it

9/29/2013 11:51 PM [View respondent's answers](#)

very enjoyable evening

9/29/2013 11:22 PM [View respondent's answers](#)

Nice to meet and chat with freinds. A good evening overall. Thankyou

9/29/2013 11:06 PM [View respondent's answers](#)

The musical function was not as good as promised. not value for money.

9/29/2013 11:01 PM [View respondent's answers](#)

Musical was not upto the mark at the beginning

9/29/2013 10:57 PM [View respondent's answers](#)

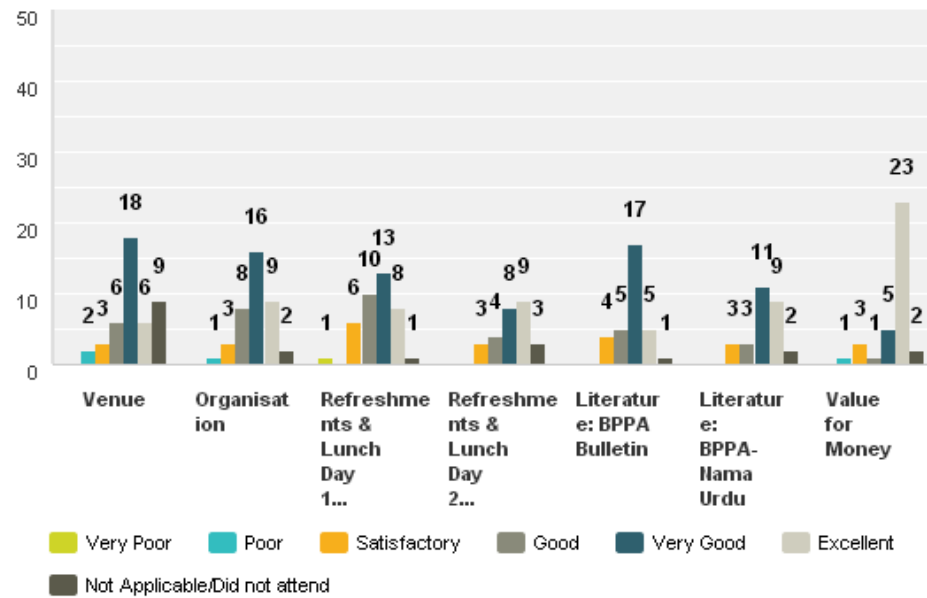

Absolute disaster. Singer has no ideas what he was singing and what the audiance likes and dislikes

9/29/2013 10:51 PM [View respondent's answers](#)

Evening was good but sound was very high. Otherwise it was entertaining

We need to have a look on RCPsych exams calendar before finalizing our future dates. It should not clash with exams to allow juniors to attend.

10/2/2013 9:27 AM [View respondent's answers](#)

I wish more people would attend. You guys are doing a wonderful job.

10/1/2013 11:52 AM [View respondent's answers](#)

Many thanks for all the hard work in organising the conference.

9/30/2013 8:03 PM [View respondent's answers](#)

Just a thought ; The academic programme should include a non medical academic session which may include social and literary speakers including fsahion and food gurus which may go along with the academic sessions or as part of the programme. This would encourage the families accompanying to be more involved in the day rather than just waiting in the lounge for the social evening. This may improve the revenue as well.

9/30/2013 1:09 PM [View respondent's answers](#)

I was looking forward to this Hotel as a venue but disappointed with sound sytesm, plates not removed from tables, unacceptable provision of mikes to questions from the flow, poor check in system for this hotel. Please change venue to somewhere in Midlands Colleagues give a blood lecture rather than ask a question. Please stop, it is annoying, Consistantly only luke war water provided for tea

9/29/2013 11:27 PM [View respondent's answers](#)

Keep working hard to make BPPA the best organisation in the UK

9/29/2013 11:22 PM [View respondent's answers](#)

Feedback should be specific to each symposium. people have submitted feedback without even in the symposium or before the end event which potentially scars the feedback

9/29/2013 11:17 PM [View respondent's answers](#)

Thanks to all who participated in organising this meeting Meeting next year-better in Mid September

9/29/2013 11:10 PM [View respondent's answers](#)

Such a disappointing scientific programme on the first day. Having attended all the conferences of the BPPA this was unquestionably the most disappointing. I will think long and hard and scrutinise the pogramme of the next one before deciding whether to attend. the social aspect however was good.

9/29/2013 11:06 PM [View respondent's answers](#)

Problems with tea all day. On Saturday ran out of hot water. Tea was very cold

9/29/2013 11:01 PM [View respondent's answers](#)

Coffee was cold

9/29/2013 10:57 PM [View respondent's answers](#)

Venue is not good, lunch not good. Tea/coffee was cold. dinner was Perfect. Musical Evening was a Disaster

9/29/2013 10:51 PM [View respondent's answers](#)

hold next annual meeting in Manchester

9/29/2013 10:46 PM [View respondent's answers](#)

Everything was fine with good venue, lectures and entertainment

9/29/2013 10:42 PM [View respondent's answers](#)

Overall I would give a high raing for the content and quality of the programme. Full credit goes to Mateen and his team. I would greatly admire the organisation BPPA for upholding the tradition of starting the programme with the recitation of the Quran and especially making an excellent arrangement for prayer. Well done Mateen and Fahad!

9/29/2013 10:36 PM [View respondent's answers](#)

The conference and topic are impressive and touch topics that you rarely find in the UK
